1. Actors

1.1 User

A User is a registered individual who uses the LoveYou platform to find romantic connections. The User can manage their profile, receive AI-powered match suggestions, swipe through candidates, search for other users, communicate with matches, and manage privacy and safety settings.

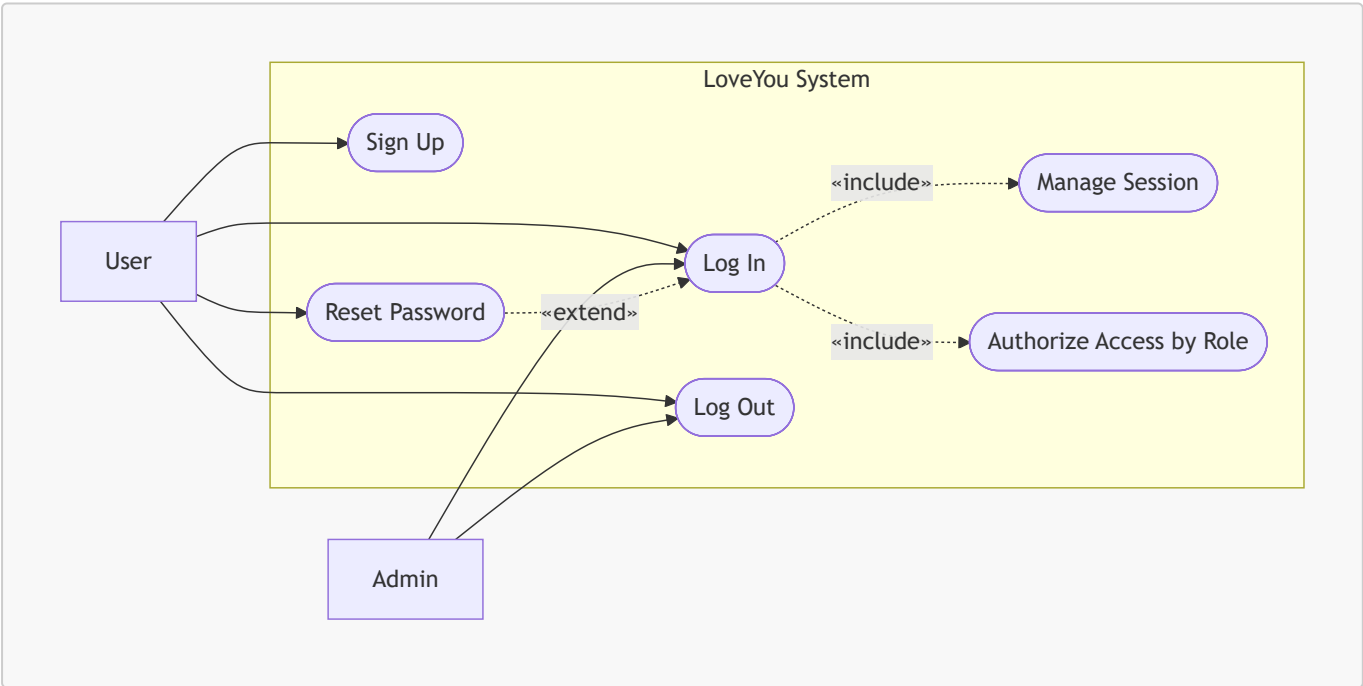

1.2 Admin

An Admin is a platform administrator who manages and monitors the LoveYou system. The Admin can view platform statistics, manage user accounts, moderate reported users, and manage the interest tag catalogue.

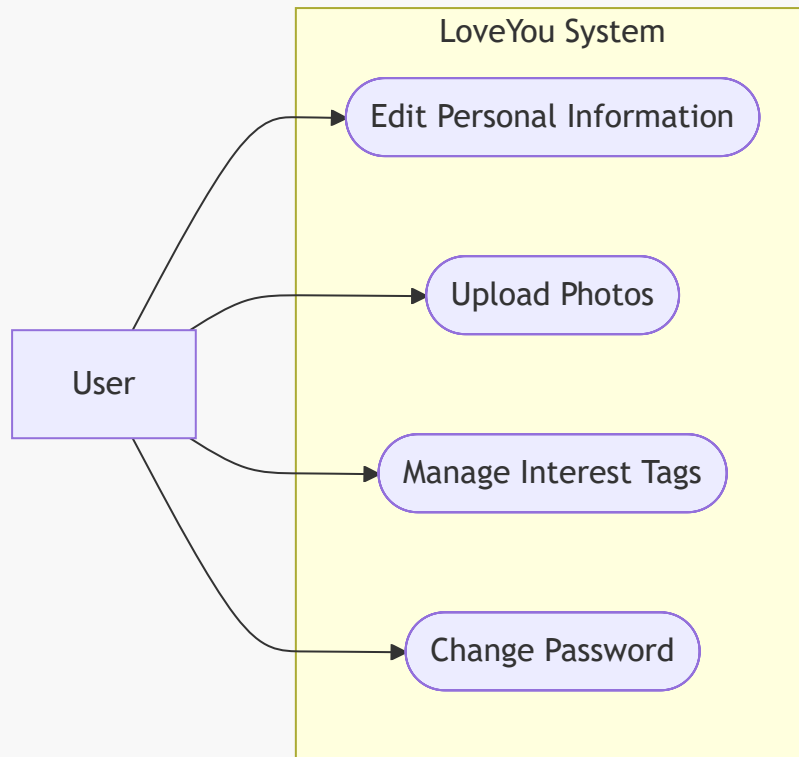

2. Account, Profile, and Onboarding Use-Case Diagram

This diagram describes the use cases related to authentication, user profile management, account management, and the onboarding process.

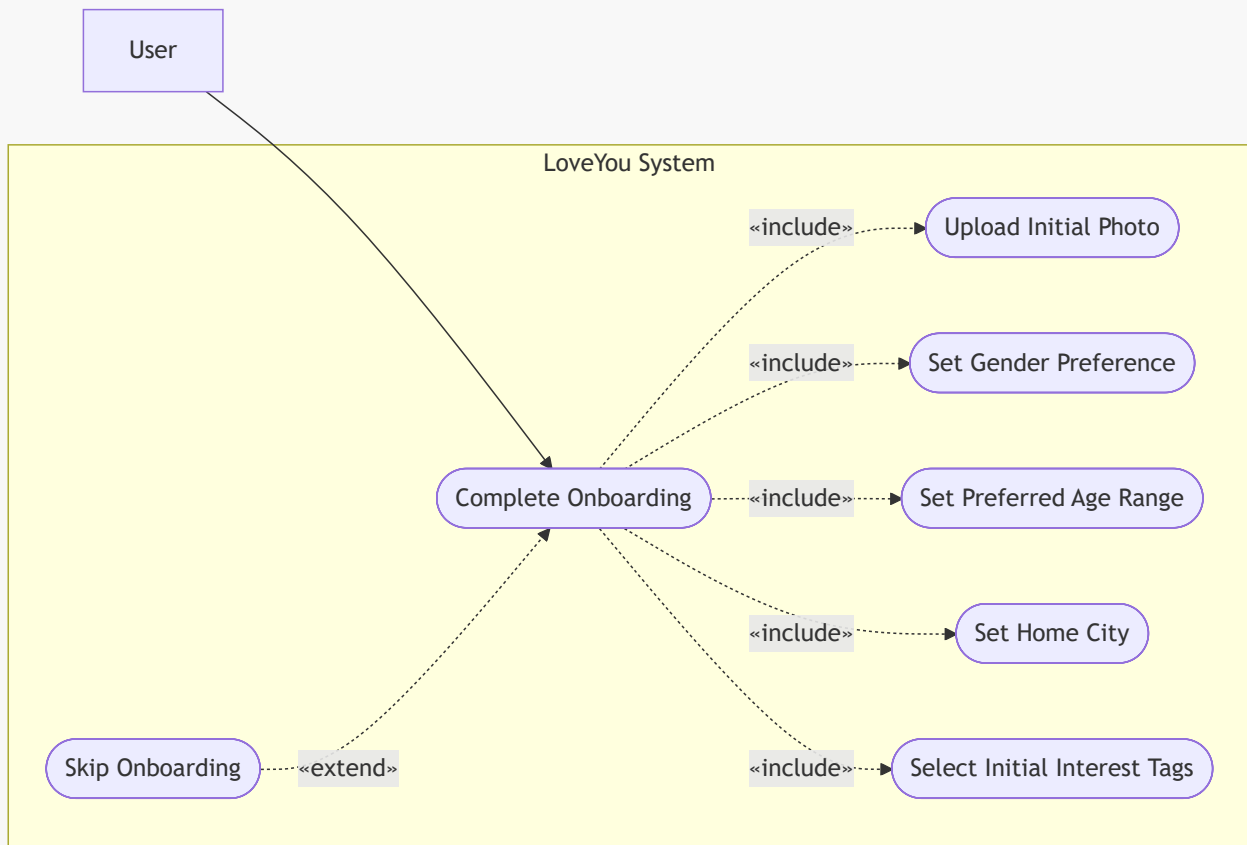

2.1 Authentication Use Cases

2.2 User Profile Management Use Cases

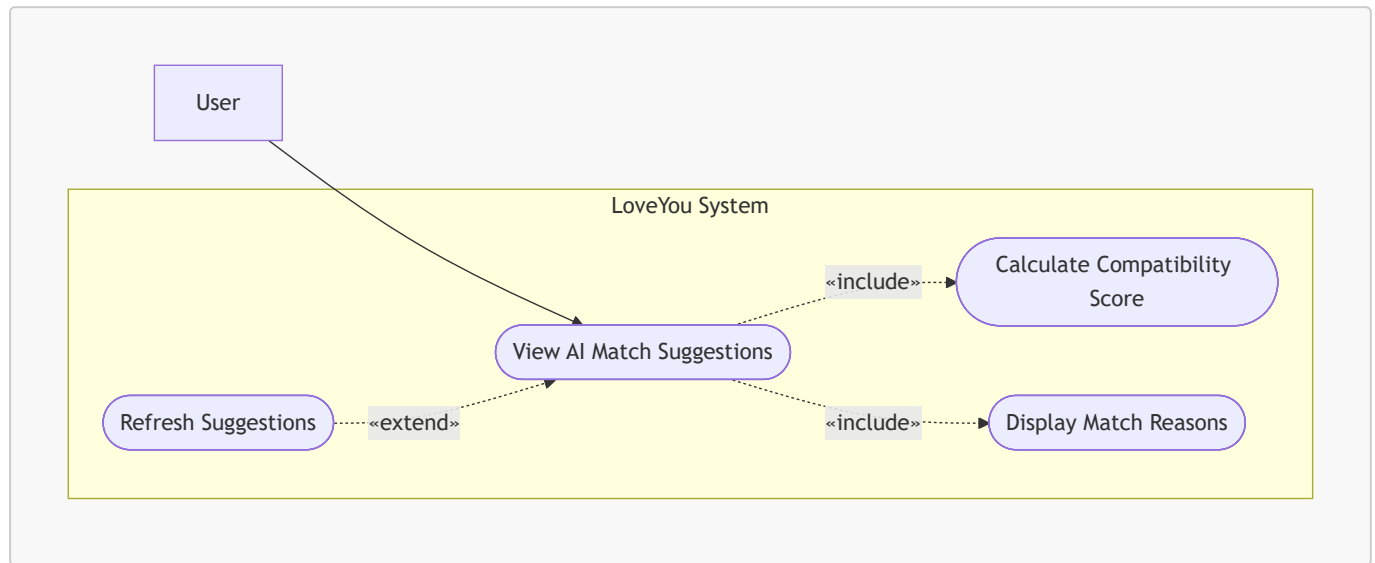

2.3 Onboarding and Preference Setup Use Cases

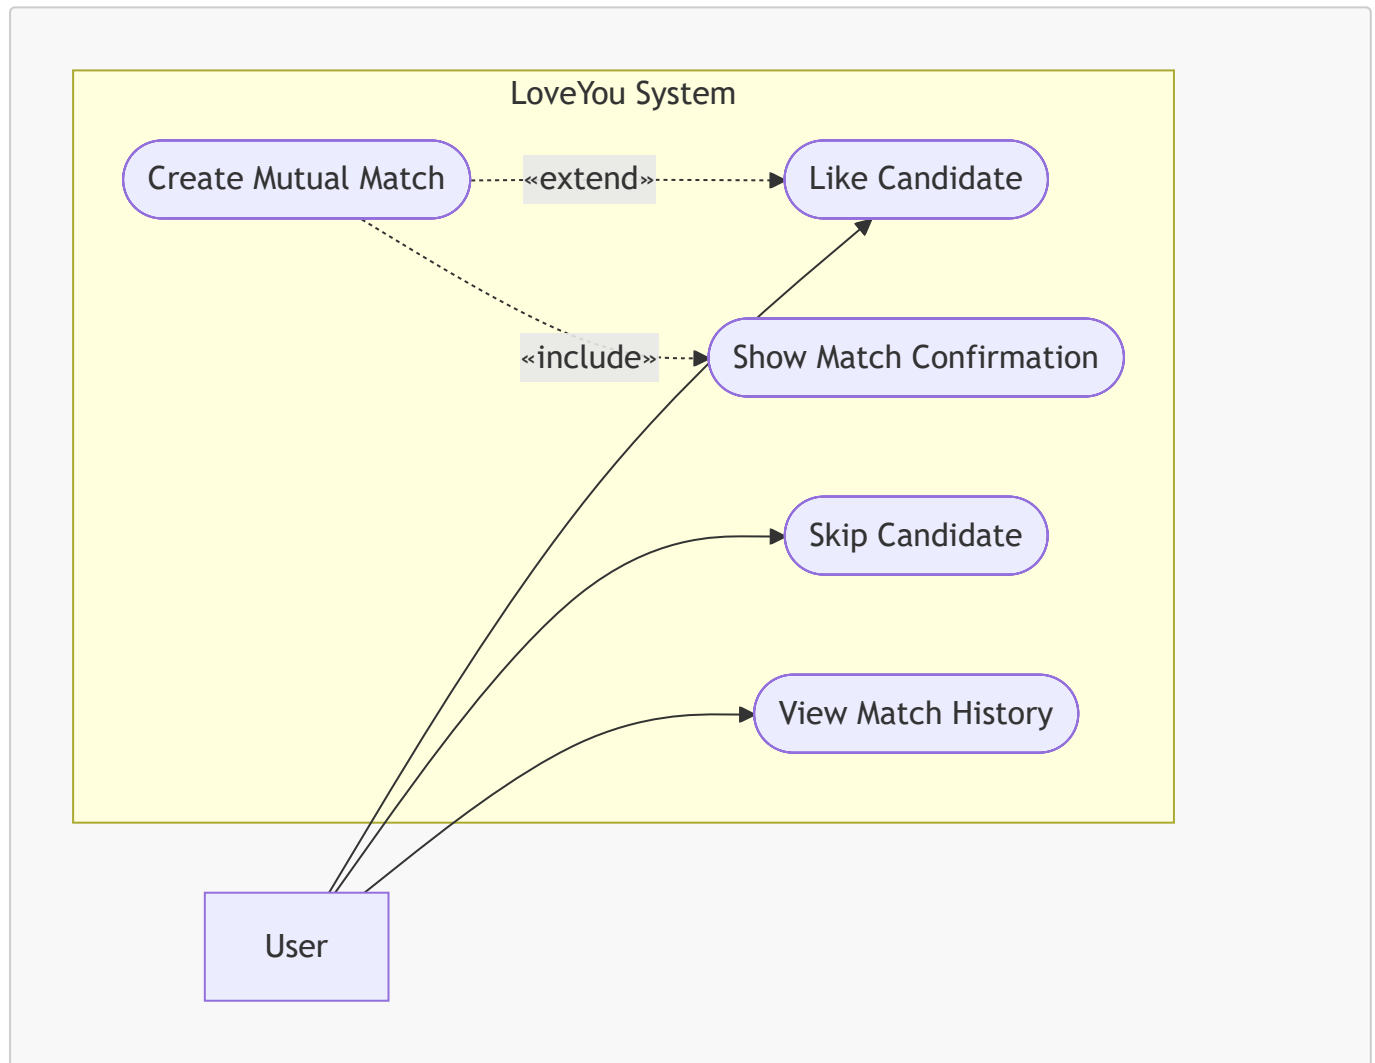

3. Discovery, Matching, and Communication Use-Case Diagrams

This section describes the use cases related to AI-powered matching, profile discovery, swiping, mutual matching, messaging, and notifications.

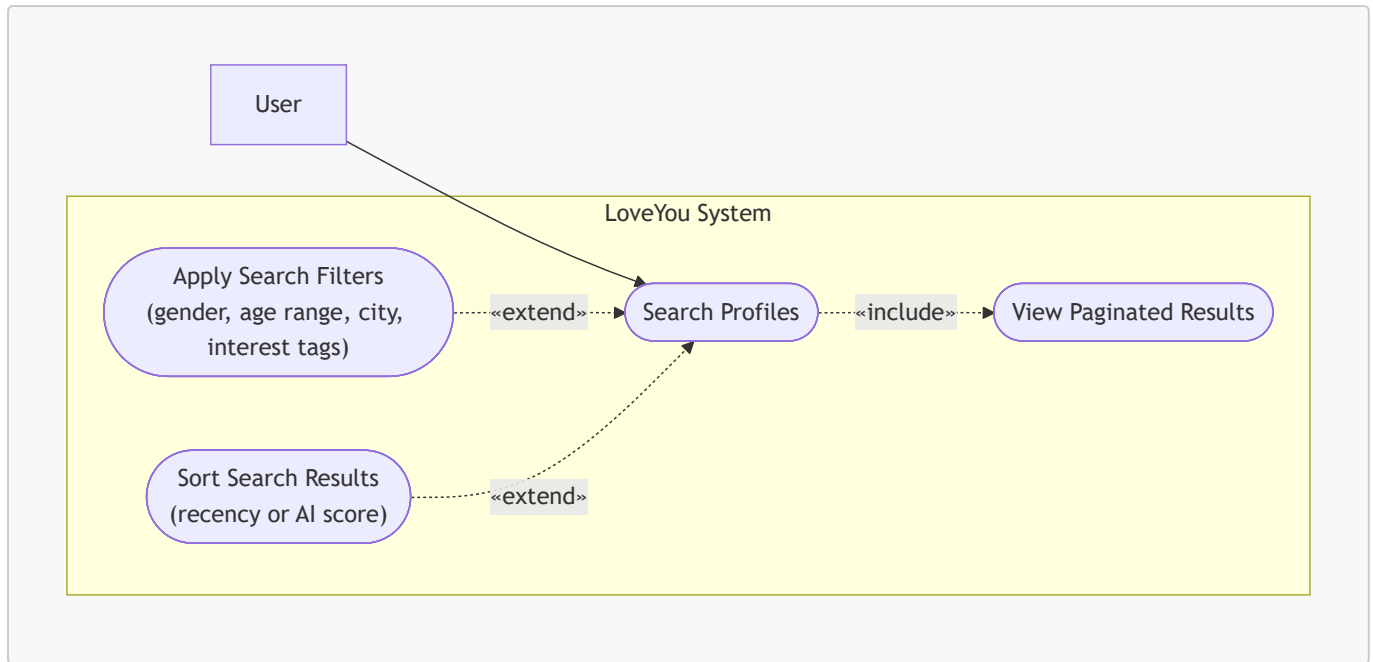

3.1 AI-Powered Smart Matching Use Cases

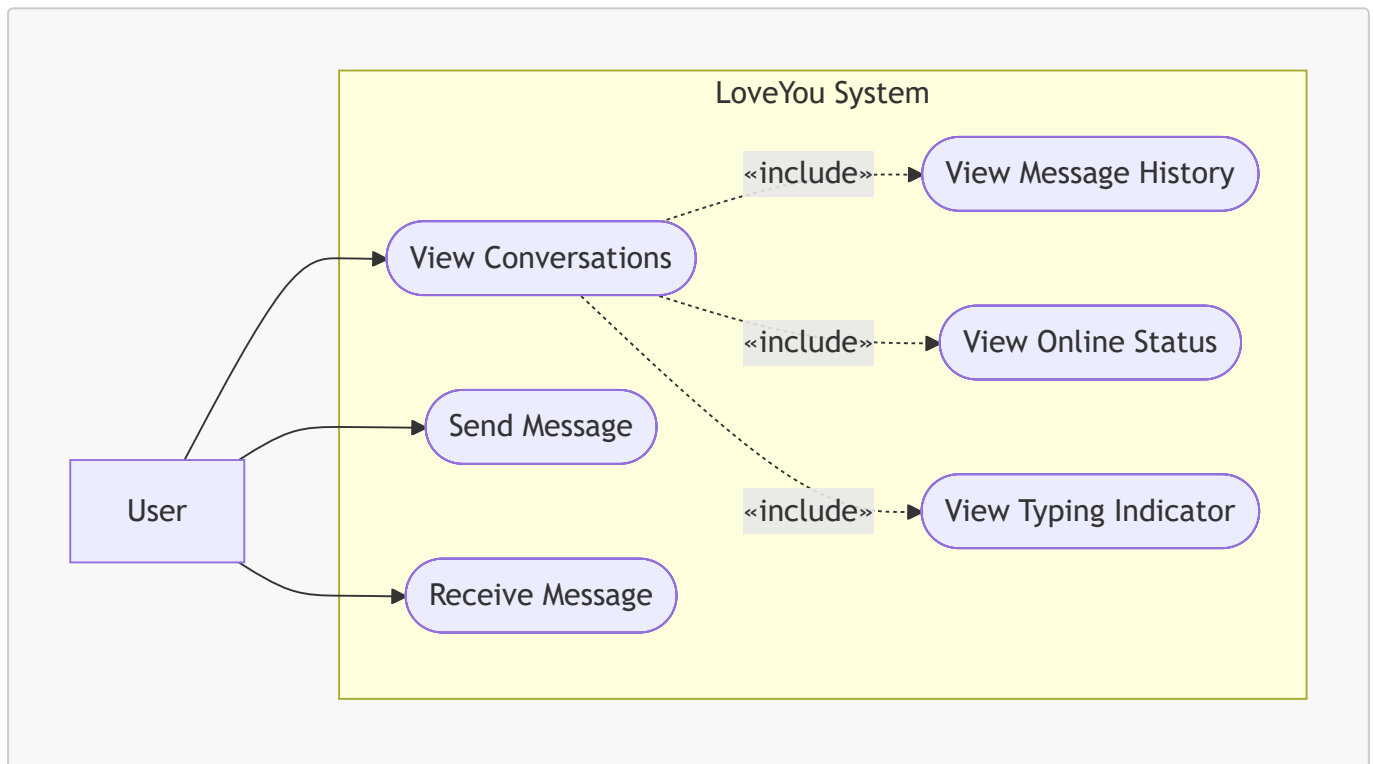

3.2 Swipe and Match System Use Cases

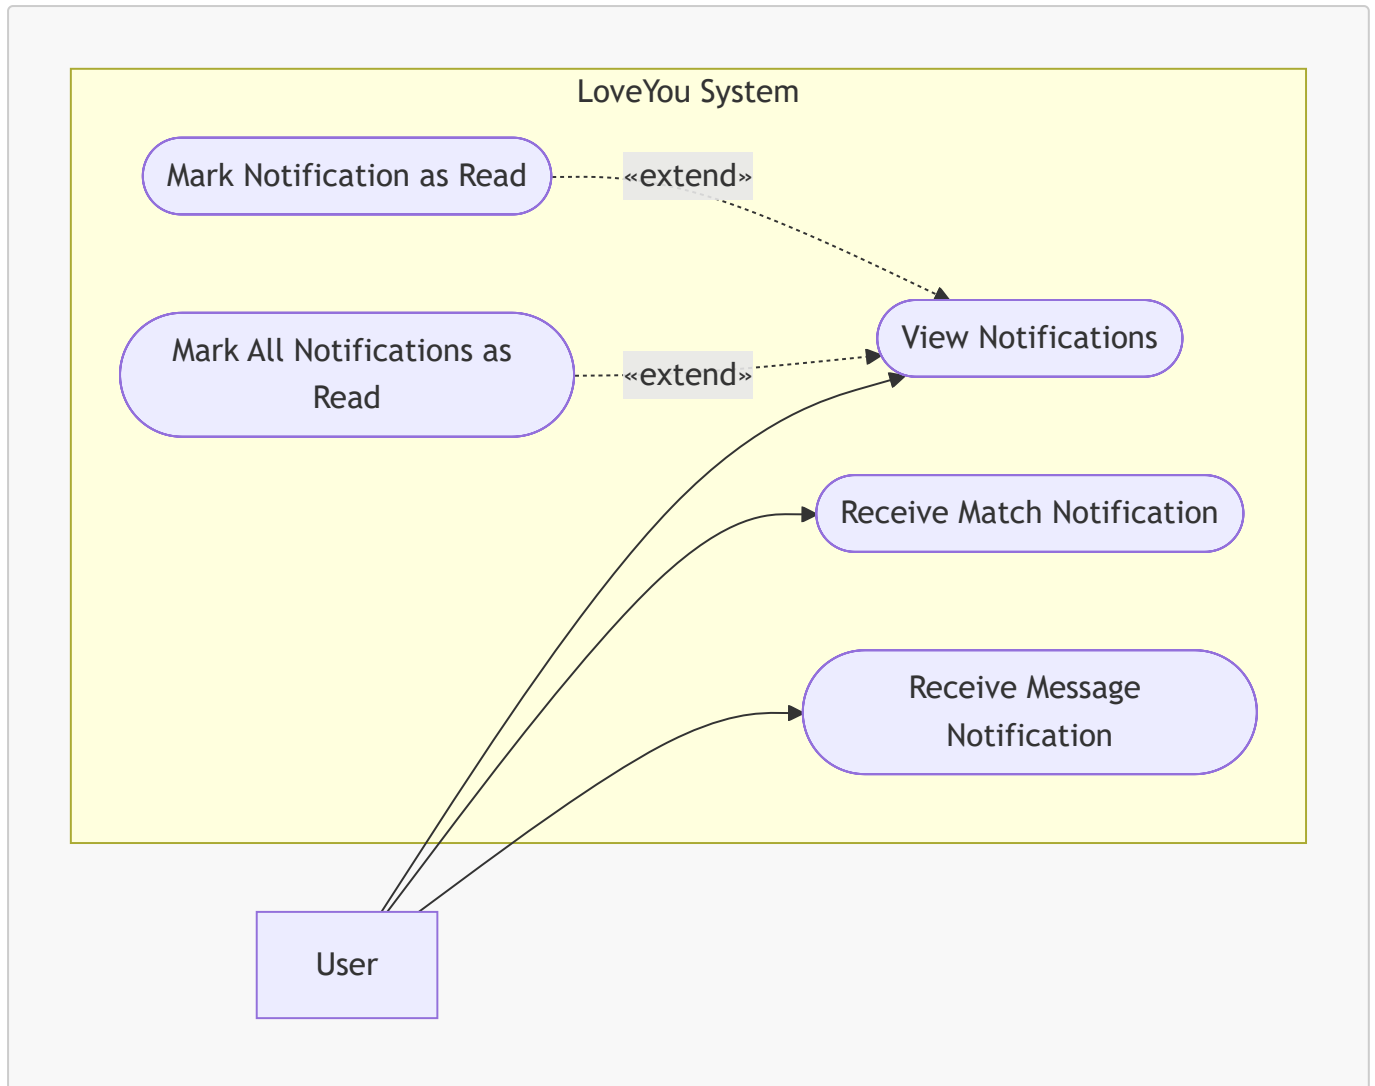

3.3 Advanced Search and Filtering Use Cases

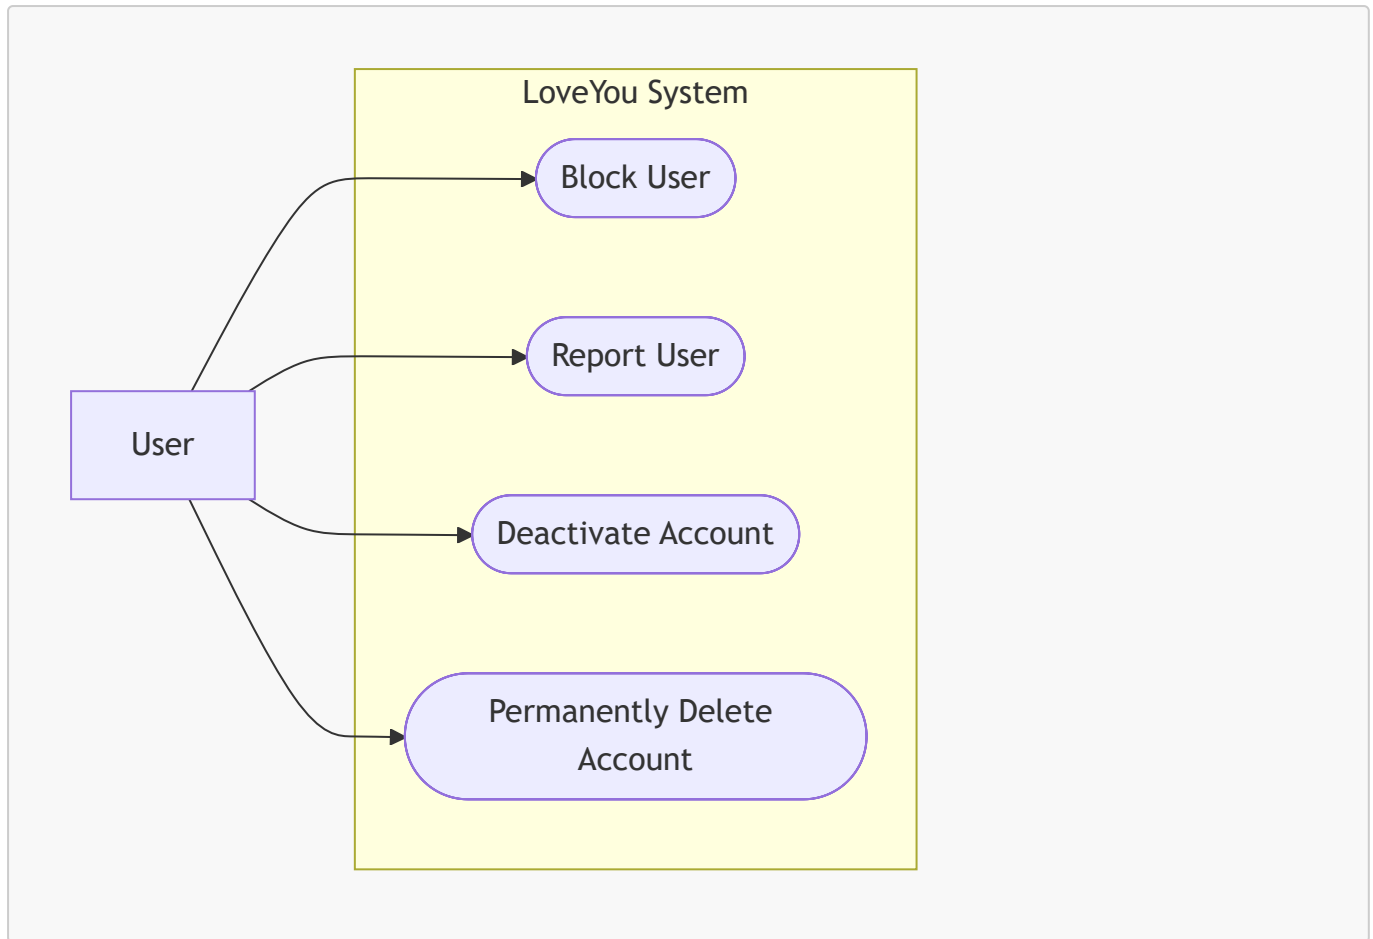

3.4 Real-time Messaging Use Cases

3.5 Notification Center Use Cases

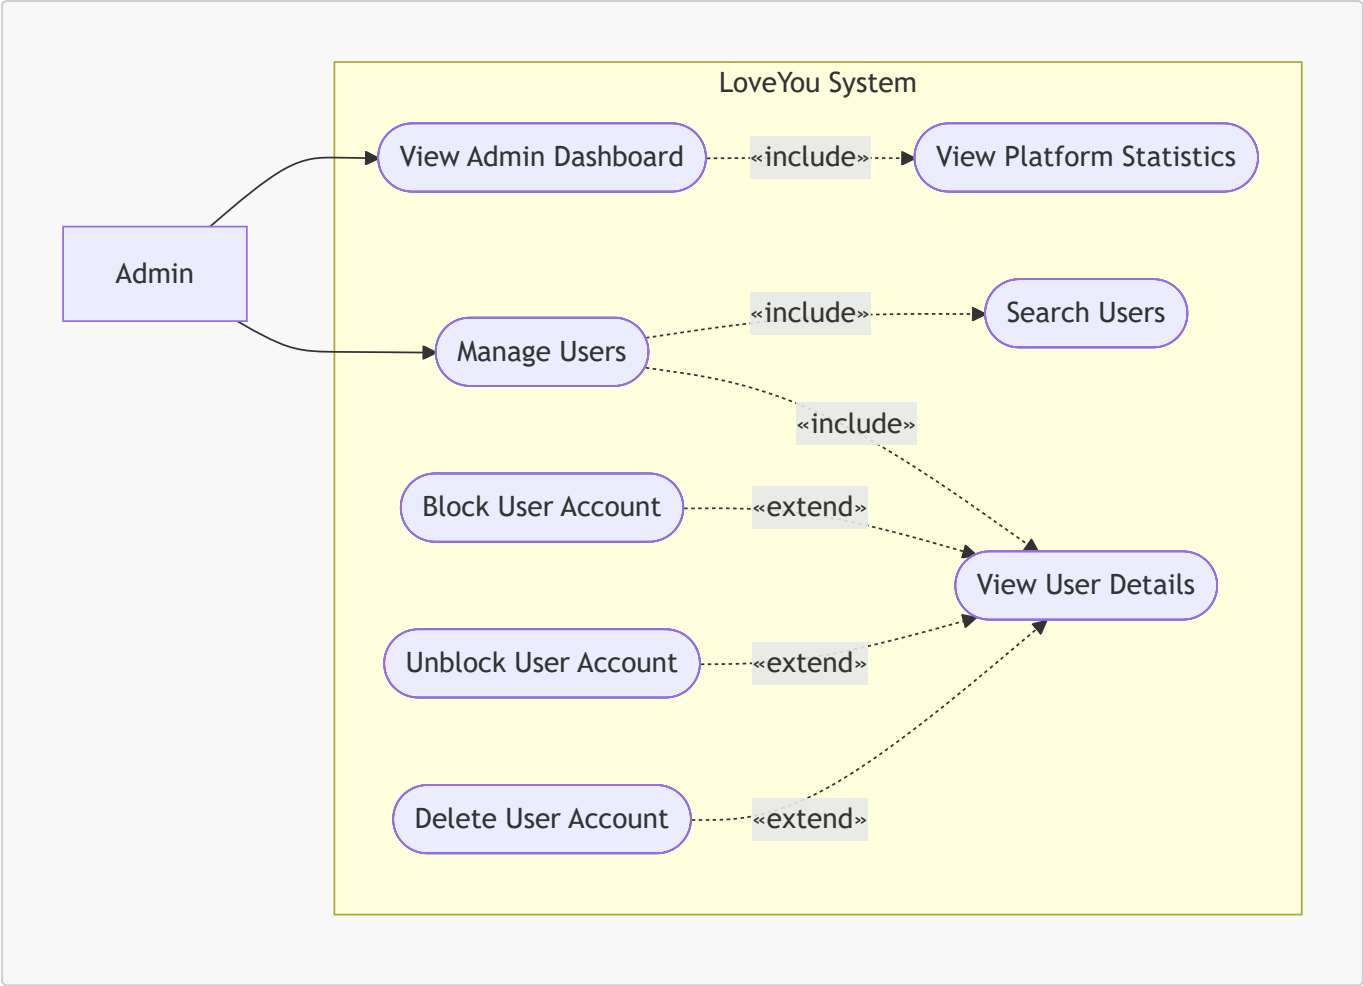

3.6 Privacy and Safety Controls Use Cases

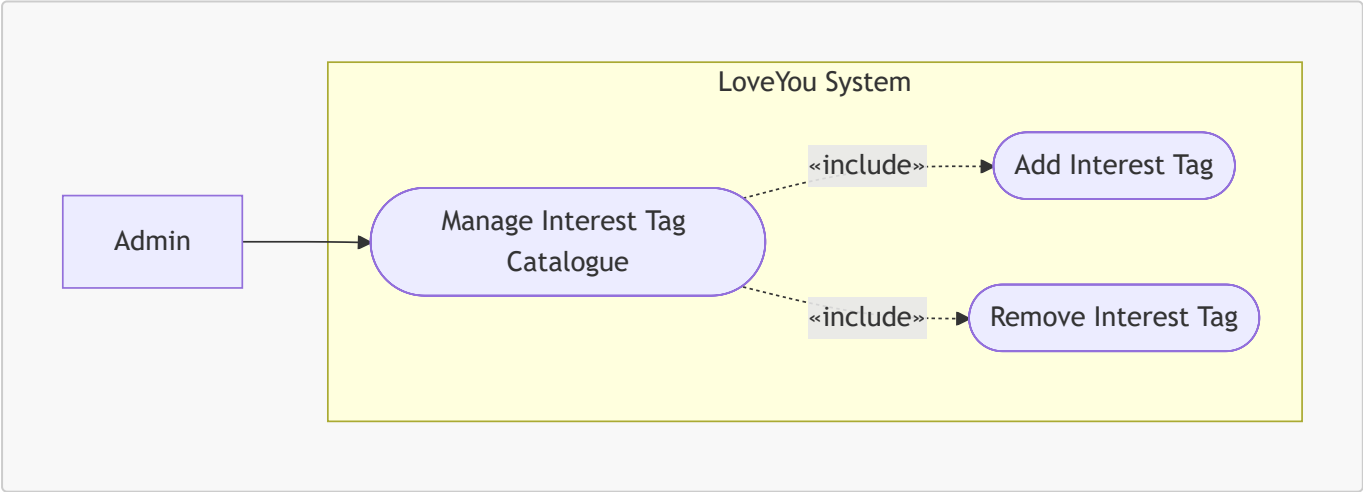

4. Administration Use-Case Diagrams

This section describes the use cases available to platform administrators, including viewing system statistics, managing user accounts, and managing the interest tag catalogue.

4.1 Admin Dashboard and User Management Use Cases

4.2 Interest Tag Catalogue Management Use Cases

5. Functional Group Traceability

The following table maps each functional group in the project proposal to the corresponding use-case diagram section.

Functional Group	Description	Use-Case Model Section
FG-01	Authentication & Authorization	Section 2.1
FG-02	User Profile Management	Section 2.2

Functional Group	Description	Use-Case Model Section
FG-03	AI-Powered Smart Matching	Section 3.1
FG-04	Swipe & Match System	Section 3.2
FG-05	Advanced Search & Filtering	Section 3.3
FG-06	Real-time Messaging	Section 3.4
FG-07	Notification Center	Section 3.5
FG-08	Privacy & Safety Controls	Section 3.6
FG-09	Admin Dashboard	Sections 4.1 and 4.2
FG-10	Onboarding & Preference Setup	Section 2.3
